fashion tip

Problem:

Some occasions call for a less boobalicious look and for those blessed with a large chest, this can pose a bit of a challenge.

Solution:

If you are looking to down-play your chest size consider wearing a cowl neck cut paired with the Plus Size Natural Solution® Bra. The draping fabric draws the eye to the part of your chest above your breasts and keeps you covered. Take this one step further and match your top with fitted pants of the same colour for a sleek, monochrome look.
